behance.net/parvathyskumar2

UI/UX Designer with **1+ year** of professional experience designing **SaaS platforms, CRM systems, web applications, and mobile experiences.** Skilled in **user research, information architecture, wireframing, prototyping, interaction design, visual design, design systems, usability testing**, and developer handoff. Experienced in leveraging **AI-assisted design tools** such as **ChatGPT, Claude, and Antigravity** alongside Figma to support **research, ideation**, and **design workflows**. Brings a strong foundation in software quality assurance, requirement analysis, accessibility, and user-centered design.

Experience

UI/UX Designer, Kallisto Innovations, Trivandrum *Mar 2026 – Present*

- Designed web applications, mobile apps, SaaS platforms, and responsive websites, creating intuitive experiences aligned with user needs and business goals.
- Managed the end-to-end design process, including user research, wireframing, high-fidelity UI design, interactive prototyping, and design system creation using Figma.
- Collaborated with developers and product stakeholders to translate requirements into functional designs and ensure accurate implementation through effective developer handoff.
- Applied usability testing insights and QA best practices to identify UX friction, improve user flows, and enhance overall usability.

UI/UX Designer – Intern, Nexotech Solutions, Alappuzha *Sep 2025 – Mar 2026*

- Contributed to UX and UI design for healthcare and education SaaS platforms, improving task efficiency and user flow clarity.
- Created wireframes, interactive prototypes, and reusable UI components aligned with product requirements.
- Assisted in building and maintaining design systems to ensure visual consistency and faster development cycles.
- Defined user flows, information architecture, and role-based access for admin users.

Software Quality Analyst - Seqato Software Solutions, Trivandrum *Apr 2022 – Sep 2025*

- Worked on SaaS, banking, telecom, and e-commerce platforms, gaining deep understanding of user journeys, workflows, and system behavior.
- Automated 500+ test cases using Selenium, JMeter, and Kafka, improving QA efficiency and product reliability.
- Collaborated with developers and product teams to validate requirements, identify usability issues, and improve overall product quality.

PROJECTS

AMAI (Ayurveda Doctors Association of India) | Mobile App & Admin Web Application

- Designed a mobile application and admin web platform to streamline user management, content publishing, and administrative workflows.

CLOZR | Integrated Business Management Platform (CRM, PMO & Helpdesk)

- Designed a unified digital experience integrating CRM, Project Management Office (PMO), and Helpdesk functionalities within a single platform.

BookMyShow Mobile App Redesign – Case Study

- Analyzed the existing app experience and identified usability challenges related to information overload, navigation complexity, pricing transparency, and the post-booking experience.

Smart Attendance & HR Management Software – Case Study

- Built a centralized HR management software automating attendance, leave tracking, and employee data management, saving 40 hours/week in manual work.

Skills

UI/UX Design: **Wireframing, Prototyping, Interaction Design, User Research, Usability Testing, Accessibility**

Tools: **Figma, Adobe XD, Illustrator, Photoshop, Canva, ChatGPT, Claude & Antigravity**

Front-End: **Framer, HTML, CSS, JavaScript & Bootstrap**

Design Systems: **Style Guides, Typography, Color Theory, Component Libraries**

Education

Bachelor of Computer Applications (BCA) – IGNOU | 2024 – Present

Diploma in Computer engineering – CPTC Vattiyoorkavu | 2018 - 2021

Certification

Professional Diploma in UI/UX Design – Keltron Knowledge Centre, Trivandrum
